The Smart Choice

Fully Sealing System

prevents fluid contamination and protects your workplace from accidental spills

Innovative Color Coding

and labeling systems improves fluid identification and minimizes the risk of topping off equipment with the wrong fluid

Square Shaped Drums

have large area for labeling requirements and fit neatly on shelves

Interchangeable Nozzles

allow the size of the pour spout to be changed without having to buy another lid

Quick Fill Port

1" wide opening with cap allows drums to be refilled without removing entire lid. Minimizes exposure to airborne contaminants

Large Carrying Handles

located on the top of iCan® lids provide a safe and easy way to carry iCan® containers

Light-switch Style Breather Vent

gives users the ability to grasp handle with all five fingers, unlike containers that require the user to hold a vent button down at all times

Adhesive iPouches®

allow important documents like MSDS sheets to be stored in the clear vinyl envelopes and affixed onto iCan® drums

Smart Accessories

and the iCan® Pump allow users to dispense fluids in confined areas

"...how practical is it to go to the extra expense to deliver a clean, high-quality lubricant when this integrity is subsequently adulterated by careless handling and storage practices?"
